

**Operationalization of Phase 1- Hospital Project of Shri Mata Vaishno Devi Institute of Medical Excellence (SMVDIME) on a PPP mode**

**Responses to queries on the RFQ**

Query 1 - The detailed list of medical equipment for understanding the capital expenditure involved in that.

Response

-  
Key diagnostics and laboratory services include MRI, CT Scan, LINAC, Nuclear Medicine, Cathlab, Mammography, fully equipped laboratory services and Blood Bank. 6 OTs have been planned including Cardiothoracic, Orthopaedic and Neurosurgery, Oncosurgery. Additionally a labour room and emergency procedure room have also been planned. A detailed list, which shall also be provided at the RFP stage, is however, enclosed herewith as Annexure-I.

Query 2 - A reconsideration from the authority on the sharing the burden of capital expenditure on medical equipment.

Response

-  
The Authority is open to providing support for the success of the project. In addition to funding the cost of services of certain category of patients, the Authority may also consider providing financial support in some form in respect of the medical equipment, the specifics of which, can however be finalized at the RFP stage.
